Consumer Notes:

September is a surprisingly light month (as witnessed by this single page). Kitty debuts another adult title (this time, the science fictiony "Alien from the Darkness") which fills in some of the gaps in the adult market. Gowcaizer from CPM/USMC will probably do quite well as it's been heavily anticipated for some time, the the Tenchi Muyo movie from Pioneer shows up this month on DVD, as well as a slightly less fancy than before laserdisc.

JEFF'S PICK(S) OF THE MONTH

This month's pick is childishly easy ... **Giant Robo 1 subtitled**. This wonderful show has really needed a subtitled version for years now, and it's finally available. Rejoice!
